

**Enhanced
RECOVERY**

1st International Conference

**Announcing the 1st International
Conference on Enhanced Recovery**

**9 - 10 September 2010
Bristol, UK**

**Bringing together international expertise to highlight the
impact that Enhanced Recovery has on surgical patient care**
www.enhancedrecoveryhub.org

This conference aims to cover current practice and future developments over the whole of a surgical enhanced recovery (ER) care pathway. The event is aimed at all members of an enhanced recovery team.

Abstract submission now open for a prize sponsored by Deltex Medical. See the website for more details.

**Enhanced
RECOVERY**

1st International Conference

Day one will provide a snapshot of the implementation of ER in the UK and describe strategies for adoption across a number of specialties. Expert speakers from Denmark, Germany, Spain and the Netherlands will provide contrasting experiences of ER adoption across Europe.

Day two will focus on the latest breakthroughs in techniques and technology to ensure optimal outcomes for patients. Aimed at the whole of the multi-disciplinary team, the speakers will set out a vision for the future of ER.

Don't miss this unique opportunity to discuss ER with a range of internationally renowned speakers.

With an opening address from Professor Henrik Kehlet
